

WORKING DRAFT V1 · PRE-SYNC REFERENCE · PREPARED BY B. AMECHI · HIGH LVL MEDIA

SUPERMIND BRAND BIBLE

The 007-pathway identity, codified: essence, wordmark, color law, typography, voice, imagery grade and application rules. Drafted August 2026 from Keys' direction words, the David reference grade, and the Master Portal design system.

Status: superseded-in-part by SUPERMIND World Bible Edition 02 (Keys, Aug 27 2026). Retained as the go-to-market application layer and for the record. Production typography per spec: Bebas Neue display / Montserrat body — this PDF renders in archival substitutes.

SUPERMIND × HIGH LVL MEDIA · August 2026

THE ONE-LINE POSITION

Cognitive luxury for minds that lead.

Supermind is a coffee the way a tailored suit is clothing. The product is mushroom coffee; the brand is a standard of moving through the world — prepared, composed, intentional. We do not sell energy. We sell command.

Heritage. Ritual. James Bond. Malcolm X. Intelligence. Clarity. Intentional. Tasteful. Divine masculine that attracts feminine.

19 KEYS — THE NINE WORDS THIS ENTIRE DOCUMENT IS BUILT FROM

THE FOUR PILLARS

HERITAGE

Coffee's origin is African. Its history is intellectual — the drink of thinkers, strategists and revolutionaries. We own that lineage on every surface: the Malcolm X-era dignity, the library, the archive, The Source.

RITUAL

Never "grab a coffee." The pour, the steam, the first sip — treated with the ceremony of a watch being wound. Ritual is the product's real function: it is how a mind gets dressed.

INTELLIGENCE

The brand reads, thinks and speaks precisely. Education without lecturing. Science without jargon. We assume the audience is already smart — we speak to them as equals.

MAGNETISM

Divine masculine that attracts feminine. Composed, never thirsty. Confident, never loud. The David lesson: tension and taste, aimed at cognition instead of provocation.

ARCHETYPE

The **Sovereign-Sage**. Bond's composure, Malcolm's mind. A brand that has nothing to prove and therefore never raises its voice. Where RYZE is the friendly neighbor and Magic Mind is the wellness founder, Supermind is the person the room quiets down for.

THE AUDIENCE, IN ONE SENTENCE

People who treat their mind as their primary asset — and want their tools, their table and their coffee to say so.

THE ENEMY

Cheap stimulation. The jittery cup, the crash, the hustle-culture noise. Every asset is implicitly against chaos and for command.

NEVER / ALWAYS

Never: corny, loud, thirsty, granola, neon, hustle-speak.

Always: matte, composed, tailored, warm-shadowed, precise, unhurried.

THE WORDMARK

Type-driven identity: the name, set in the display face, letterspaced, in cream or gold on deep ground. No mascots, no flourishes — the restraint IS the mark.

PRIMARY WORDMARK — DISPLAY FACE, TRACKING +18%, CREAM ON OBSIDIAN

INVERSE — INK ON CREAM

CEREMONIAL — GOLD ON BURGUNDY,
CAMPAIGNS ONLY

THE S MONOGRAM —
AVATARS, MUG BASE,
WAX-SEAL MOMENTS

CLEARSPACE — KEEP ONE CAP-HEIGHT OF EMPTY
SPACE ON ALL SIDES, ALWAYS

USAGE RULES

- **Tracking is the identity.** +18% letterspacing on the wordmark, never tightened, never stretched.
- **Three inks only:** cream on dark, ink on cream, gold on burgundy. Gold is ceremonial — launches, the Golden Ticket, anniversary moments.
- **Minimum size:** the wordmark never renders below 90px wide on screen or 25mm in print. Below that, use the S monogram.
- **On photography:** only over the darkest third of the frame, or on a gradient scrim. The mark never fights an image.
- **Lockup with 19KEYS:** "SUPERMIND × 19KEYS" in equal size, separated by a thin gold ×. Neither name ever sits above the other.

MISUSE — INSTANT KILL LIST

- No drop shadows, glows, outlines or bevels.
- No stretching, squeezing, arcing or rotating.
- No bright red fill of the wordmark itself — crimson is an accent, not an ink.
- No placing on busy patterns, neon grounds, or competitor-adjacent bright reds.
- No italics. The mark never leans.

PACKAGING NOTE

The current bright-red pack carries the Supers world. As the 007 migration phases in at the next print run, packaging moves to the obsidian system — matte black vessel, one engraved gold ring, one red enamel dot. The dot is the entire brand in one millimeter: ignition, controlled.

THE PALETTE — FIVE INKS, ONE LAW

				
OBSIDIAN #0A0002 The ground. Matte, never crushed to pure black.	BURGUNDY DEPTH #5C0008 → #3E0003 The shadow world. Every shadow leans burgundy, never gray.	IGNITION RED #A40001 The accent. A scalpel, not a paintbrush.	CREAM #F5F3F2 The light. Warm, never clinical white.	HERITAGE GOLD #C9A227 Ceremonial only. Earned, not sprinkled.

THE 80 / 15 / 5 LAW

Eighty percent deep ground, fifteen percent cream for clarity, five percent ignition red for emphasis. When a layout feels wrong, it is almost always because red exceeded its five percent. Gold sits outside the ratio entirely — a few pixels, a ring, a seal, on ceremonial assets only.

APPROVED PAIRINGS

		
---	---	---

THE GRADE, IN LIGHT

- **Shadows:** tinted toward #3E0003. A gray shadow is a graded-wrong frame.
- **Highlights:** warm and cream-toned. Skin glows, metal glints, steam catches light.
- **Blacks:** matte. Detail lives in the darks — never crushed for drama.
- **Forbidden:** neon, pastels, cool blues and greens (except controlled brain-science imagery), flat even lighting, bright-white backgrounds outside the white-studio show format.

LEFT: OUR GENERATED GRADE. RIGHT: THE DAVID REFERENCE. SAME LAW — BURGUNDY SHADOWS, WARM LIGHT, ONE ACCENT.

CLARITY IS THE LUXURY.

THE DISPLAY VOICE — BEBAS NEUE

THE TWO FACES

BEBAS NEUE — THE COMMAND

ABCDEFGHIJKLMNOPQRSTUVWXYZ
0123456789

Headlines, statements, packaging, numbers that matter. All caps, always. It speaks in declarations and never needs bold — it already is one.

Montserrat — the counsel

Aa Bb Cc · Light 300 for body · SemiBold 600
for emphasis · Bold 700 for eyebrows

Body copy, captions, interface. Light by default — the airiness
against Bebas' weight is the brand's visual tension: command
and composure on the same page.

THE TRACKING SCALE — DISTANCE IS AUTHORITY

RITUAL 0 — never used

RITUAL +2% — headlines

RITUAL +18% — the wordmark

RITUAL +34% — eyebrows & labels

THE HIERARCHY — ANATOMY OF EVERY LAYOUT

01 — THE EYEBROW SETS CONTEXT

02 — THE HEADLINE COMMANDS

03 — The body counsels.
Montserrat Light, generous
leading, never more than 78
characters per line. It explains
what the headline declared,
calmly, and stops before it
repeats itself.

04 — THE CAPTION WHISPERS THE SOURCE

EYEBROW → HEADLINE → RED RULE → BODY → CAPTION. EVERY
ASSET IN THIS ENTIRE SITE FOLLOWS THIS STACK — THAT
CONSISTENCY IS THE BRAND.

NUMBERS ARE CONTENT

\$15,000

Figures set huge, in Bebas, tabular. A number the
brand is proud of is a headline, not a footnote.

TYPE LAW

- **No italics, ever.** The brand never leans. Emphasis = weight or color, never slant.
- **No exclamation marks.** Certainty does not shout.
- **Two faces only.** A third font on any asset is a defect.
- **Minimums:** body 13px, captions 10px, eyebrow tracking never below +30%.

HOW SUPERMIND SPEAKS

Calm authority. Short declaratives. It never explains itself twice, never begs, never hypes. Written to be read aloud in a low voice.

THE REGISTER

- **Declare, then stop.** "The best-tasting mushroom coffee." Not "arguably one of the best..."
- **Speak to an equal.** "You" is a peer with standards, never a target being converted.
- **Teach without lecturing.** One mechanism per asset, plainly: "Caffeine borrows energy. Cordyceps builds it."
- **Ritual language over product language.** The pour, the first sip, the morning protocol — never "grab," "boost," or "fuel up."
- **Heritage present, not performed.** The lineage appears in imagery and story arcs, not hashtags.

LEXICON

Use: ritual, clarity, intention, discipline, command, heritage, sovereign, finish, taste, precision, flow.

Kill on sight: vibes, hustle, grind, manifest, tribe, boost, hack, motivation, "let's gooo," any emoji in brand voice.

THE APPROVED LINES — ROTATE, NEVER STACK

START NOW. ALWAYS FINISH.	CLARITY IS THE LUXURY.
DESIGNED FOR MINDS THAT LEAD.	DISCIPLINE HAS A FLAVOUR.
DRINK WITH INTENTION.	THE MIND IS THE ASSET.

VOICE IN THREE FORMATS

FORMAT	EXAMPLE
Product caption	"Cordyceps. Lion's mane. No crash. The ritual holds."
Education open	"You don't get tired. You lose clarity. Here is the mechanism."
Drop announcement	"Tomorrow. 10am. The obsidian tin. There are three hundred."

THE FRAME — HOW SUPERMIND IS PHOTOGRAPHED

LIGHT

- **One source, committed.** Hard side light or a single warm window. Chiaroscuro is the house style; flat light is a defect.
- **Shadows are content.** Half the frame can live in darkness. What emerges from it matters more than what is fully lit.
- **The crimson kiss:** one red practical or rim light per scene, maximum.

TEXTURE VOCABULARY

Marble · matte metal · obsidian ceramic · silk · aged wood and leather · steam · gold dust · espresso crema. Nothing rustic, nothing plastic, nothing neon.

PEOPLE

- Composed posture, relaxed authority. Expression says certainty, not excitement.
- Tailoring and elevated minimal clothing, neutral tones. No loud prints, no athleisure outside the discipline-culture formats.
- All complexions of the culture represented, lit with the same warm reverence.

MOTION & SOUND

- **Camera:** slow, deliberate, locked or gliding. Never shaky, never whip-panned. Speed ramps only inside the David-style drop films.
- **Sound:** ritual foley forward — the pour, the stir, the cup on stone, a page turning. Score under it, bass-warm, minimal.
- **Cut rhythm:** long holds punctuated by one hard cut on the product reveal.

THE DAVID TEST

BEFORE ANY FRAME SHIPS, ASK: WOULD THIS SURVIVE NEXT TO THESE? IF IT LOOKS AMATEUR BESIDE THE REFERENCE GRADE, IT DOES NOT POST.

THE SYSTEM, APPLIED

OFFER TILE — THE FULL HIERARCHY STACK ON OBSIDIAN

EDUCATION TILE — INK ON CREAM, ONE CRIMSON EMPHASIS

CEREMONIAL DROP TILE — GOLD ON BURGUNDY, DAVID CADENCE

SURFACE RULES

SURFACE	RULE
Instagram grid	Proof → education → offer rhythm. Never two same-value tiles adjacent. Red appears once per three posts.
Thumbnails	Full-bleed image, obsidian gradient from the bottom, series name in crimson micro-caps, title in Bebas, seven words max.
Stories	Obsidian ground, one image, one line, one link. Never stickered into noise.
Email	Cream ground, ink type, one crimson button. Reads like a letter, not a flyer.
Events	Matte black cart, gold ring detail, cream menu card set in the two faces. The booth is the pack, scaled up.

GOVERNANCE — HOW THIS STAYS LOCKED

- **This bible is versioned.** v1.0 locks at the Aug 25 board meeting for the full 3-month interval.
- **Changes are written.** A change request names the rule, the reason, and the evidence. Silence is not approval; a conversation is not a change.
- **Every asset is checkable.** Grade, type stack, ratio law, voice register — a fifteen-second review against this document before anything posts. Amechi holds the pen; Keys holds the veto at lock points only.
- **The Supers live inside it.** Character and bright-red assets ship as designated capsule campaigns, tagged as such — they visit the house; they do not redecorate it.

THE POINT OF ALL OF IT

A brand bible is not decoration rules. It is the mechanism that lets ten different people — editors, creators, affiliates, Atlanta crews — produce work that looks like ONE mind made it. That consistency is what the audience reads as premium, and what an acquirer reads as value.

SUPERMIND

CLARITY IS THE LUXURY.
