

SUPERMIND

THE WORLD BIBLE

Version 02. The complete system — what we believe, who we are speaking to, how the brand looks and sounds, and how the work gets made.

I THE ARGUMENT · II THE AUDIENCE · III IDENTITY
IV TYPOGRAPHY · V COLOR AND MATERIAL · VI THE FOUR MODES
VII THE REFERENCE SET · VIII MAKING THE WORK
IX THE PROMPT SYSTEM · X WORDS · XI THE GATE

HOW TO USE THIS BOOK

This is one book. Everything the brand needs to make work lives here — the argument, the audience, the marks, the type, the color, the photography, the words, the prompts and the gate every asset passes through before it goes out.

THREE WAYS IN

- **Making something today.** The Quick Card at the back is one page. Palette, feed law, casting, the ten that never ship, the release checklist. That is enough for most days.
- **Briefing a shoot, a writer or a crew.** Part VI for photography, Part VIII for production, Part X for words. Each section is written to be handed over whole.
- **Settling an argument.** Every rule carries a status. Locked does not move. Preferred is the default unless a brief says otherwise. Pending is waiting on proof.

THE STATUS SYSTEM

LOCKED	Does not change. Founder decision only.
PREFERRED	The default unless a brief states otherwise.
PENDING	Awaiting proof, approval or data.
PROHIBITED	Never ships. No exceptions, no deadlines.
SUPERSEDED	Replaced. Sell through, do not reorder.

WHO DECIDES WHAT

Founder	Owns the argument, the world laws, and every change to a locked rule.
Producer	Owns execution inside a locked rule. Batched for weekly approval.
Editor	Owns the score and holds the release.
Anyone	Can flag. Only the founder unlocks.

The one rule about the book itself

It is reviewed on a schedule, not in the middle of a campaign. Direction that changes mid-flight has cost this brand more than any competitor has. **The book holds for the quarter.**

The world is not a campaign backdrop. It is the brand.

PART I

THE ARGUMENT

What the brand believes, and the laws that follow from it. Everything else in this book is downstream of these four pages.

1.1

COGNITIVE LUXURY, MADE TANGIBLE.

Supermind is a Black-led wellness house where composed intelligence is the highest form of status. Ancestral warmth and future precision are not two aesthetics being balanced. They are one civilization.

WHAT WE ARE ACTUALLY SELLING

Not energy. Not a supplement. **The capacity to think clearly for the hours that decide everything** — and objects on a counter that say the person living there takes that seriously.

THE FIVE THINGS THAT ARE ALWAYS TRUE

- **Intelligence is the status symbol.** Not wealth, not effort, not intensity. The room recognises a mind that is working.
- **Composure is the register.** Nothing in this brand shouts. Restraint, precision and space create presence.
- **Blackness is the context, never the texture.** This is a world built by and for Black intellectual life. It is not a palette choice.
- **The behavior carries the brand.** The product may be hero, tool, evidence or absent. What the person is doing is the subject.
- **Accuracy creates authority.** Ancestral knowledge guides the question. Evidence governs the claim.

WHAT WE ARE NOT

Not a hustle brand. Not a biohacking protocol. Not a soft wellness morning. Not a supplement company that happens to have good photography. **A house** — with a look, a sound, a room, and a standard for who belongs in the frame.

The line
Clarity is the luxury.

1.2

THE WORLD LAWS

LOCKED

Seven laws. They govern every frame, every line, every object. A piece of work that breaks one of them is not off-brand. It is not Supermind.

THE SEVEN

- 01 **The world stays recognisable with the product removed.** If deleting the pack leaves an ordinary photograph, the frame was never ours.
- 02 **One committed light source.** Warm amber practicals indoors, natural daylight in living scenes, controlled soft light for product. Every reflection explains itself.
- 03 **One governing idea per frame.** If two ideas want the same asset, they are two assets.
- 04 **Plants are cultivation, not decoration.** Real species, believable ecology, visible care. Living plants appear in at least three of every nine published frames.
- 05 **Real materials only.** Stone, marble, walnut, leather, glass, metal, paper. Nothing that could not be photographed in a room that exists.
- 06 **People read as capable.** Intelligent, healthy, socially connected, composed. Relaxed authority, never excitement.
- 07 **No claim outruns the evidence.** Every functional statement traces to the claims file in Part X.

THE SAME TIMELINE TEST

Four questions, asked of every frame before it is made and again before it releases. Four yeses or it does not go.

- 01 Could this scene be physically produced?
- 02 Do these materials exist?
- 03 Does the light have a source?
- 04 Would it belong in this world with the product removed?

The test is the fastest quality filter the brand has. It kills fantasy ecosystems, impossible reflections, plastic foliage and every rendered-looking product shot before anyone spends a day on them. It applies to photographs and to prompts equally.

REAL GREENHOUSE, REAL SPECIES, REAL DAYLIGHT, REAL WORK.
PASSES ON ALL FOUR.

1.3

QUIET AUTHORITY

The single hardest thing to hold, and the thing that makes this brand different from everything else in the category. It is a discipline, not a mood, and it is measurable frame by frame.

WHAT IT LOOKS LIKE

NOT THIS	THIS
Bright, flat, total light	One source, half the frame in shadow
The subject performing for camera	The subject unaware, or assessing
Product held up and presented	Product where it would actually sit
Excitement	Composure
Filling the frame	Leaving space and trusting it
Explaining	Stating

HOW IT IS SCORED

Read the caption aloud in a low voice. Look at the frame with the product removed. If either needs volume, energy or a smile to work, the asset has left the register.

HALF-LIT, DRESSED, ENTIRELY IN CONTROL OF THE FRAME. NOTHING IS BEING SOLD TO YOU.

THE THINGS THAT BREAK IT FASTEST

- An exclamation mark
- A countdown or a scarcity line
- A face doing a reaction
- Three text covers in a row
- A stock transition or a trend audio
- A claim bigger than the evidence

Why it is worth the difficulty

The audience has been marketed to loudly their entire adult life. Quiet is the only remaining differentiator that cannot be copied by a competitor with a bigger budget.

PART II

THE AUDIENCE

Who buys, who leads the frame, and the ratio that keeps the two from drifting apart.

2.1 – THE PRIMARY SUBJECT

SHE IS THE CENTER OF THE FRAME AND THE CUSTOMER FILE.

WHO SHE IS

Black women, roughly 25 to 40. Professionals, founders, creatives, practitioners, mothers, students of their own discipline. She treats her mind as her primary asset and her body as the instrument that carries it. Composed, in shape, put together. She has already decided how she wants to live.

WHAT SHE IS SOLVING FOR

- Clarity that lasts through the hours that matter
- Energy without the crash, the jitter or the dependency
- A morning that belongs to her before it belongs to anyone else
- Longevity as a practice rather than a panic
- Rooms where intelligence is the social currency

WHAT SHE WILL NOT TOLERATE

- Being marketed to as a problem to be fixed
- Wellness that reads as escape rather than capacity
- Hustle language and manufactured urgency
- Blackness used as texture instead of context
- Anything that tastes like obligation

WHERE SHE ALREADY IS

Instagram

Saves and shares before she buys. Carousels and stills beat trends. The comments are the research.

Long form

YouTube and podcasts while she works or trains. Where the founder voice does the most work.

The room

Hikes, sound baths, dinners, masterminds. Highest conversion, hardest to scale.

Her group chat

No analytics, highest trust. Everything else exists to earn a place in it.

THE PURCHASE TRUTH

First purchase

Taste and trust. Someone she respects vouched.

Converts to subscription

The ritual holding three weeks straight.

Makes her bring people

The room. The hike, the table, the gathering.

Loses her

Inconsistent supply. A claim bigger than the evidence.

The brief, in one line

She is not looking for a supplement. She is assembling a life where her attention is the most protected thing she owns, and she wants the objects on her counter to say so.

2.2 – THE FULL CAST

WHO ELSE BELONGS IN THE WORLD

Naming a primary subject does not narrow the world. It orders it. Every group below belongs, and each carries a defined share of the frames.

01

The primary

Black women, 25–40. Leads campaign, product, ritual and the majority of frames containing people.

02

The secondary

Black men, 25–40. Discipline, training, study, the founder-voiced register. Present, aspirational, never the default.

03

The lineage

Elders, 55+. Archive world-building and intergenerational scenes. Dignified, central, never decorative.

WHICH CAST LEADS WHICH CONTEXT

CONTEXT	WHO LEADS
Campaign and product	Primary and secondary, 25–40
Ritual in Motion	Primary and secondary, 18–40
Analog Archive	Full generational range, elders expected
Gathering and institution	Intergenerational by default
Luxury Laboratory	Product-led; hands and practitioners of any age

NON-NEGOTIABLE

Every person on camera is visibly eighteen or older, without exception. Supermind carries CBD-adjacent products; no subject who could read as a minor is acceptable in brand imagery.

WIDER DIVERSITY

Non-Black subjects appear as guests in a world that is unmistakably Black-led — in gatherings, collaborations and public scenes. Never as the face of a campaign, and never in a way that asks the viewer to reinterpret whose world this is.

THE CASTING BRIEF, AS ISSUED

SUPERMIND CASTING BRIEF

Black, African, African-American, mixed and brown women and men, 25 to 40, visibly adult. In shape, composed, put together. They read as intelligent, healthy, capable and socially connected.

Women lead. Natural hair and real skin texture preserved. Wardrobe in black, ivory, tobacco, oxblood, charcoal or dark green. Restrained metal jewelry.

No influencer posing. No biohacker sterility. No tokenism. The expression is relaxed authority, never excitement.

Never use Blackness as texture, shorthand or corporate symbolism.

2.3 – THE MECHANISM

THE CASTING RATIO

LOCKED

A principle that cannot be scored will not survive a production week. Three rules make representation measurable at the frame, the month and the quarter.

RULE ONE – THE FRAME

In any nine-frame board, women lead at least half of all frames containing people. Lead means the subject whose behavior the frame is about.

A compliant board. Six frames carry people: four led by women, one by a man, one intergenerational. Plants in three. Product dominant in two.

RULE TWO – THE MONTH

Across any rolling thirty days, women lead at least fifty-five percent of published assets featuring a person. Measured against the archive, not against intent.

RULE THREE – THE QUARTER

Each quarter, at least one long-form film or campaign is led by a woman. A quarter where every flagship is male-led fails, whatever the monthly number says.

WHY A NUMBER AND NOT A SENTIMENT

Every brand that wrote "we value balance" and left it there drifted toward whoever was easiest to book that week. A number survives a busy month. A feeling does not.

EXEMPTIONS

- Founder-voiced content is exempt at frame level, still counts monthly
- Product-only, material and nature frames carry no casting obligation
- Documentary coverage of a real event is logged, not scored

REPORTING

Per asset EDITOR Scored at the gate. Nothing releases below nineteen of twenty-two.

Monthly PRODUCER Share of people-led assets led by women, against the fifty-five percent floor.

Quarterly B. AMECHI Ratio held against the customer file, reported next to non-founder revenue.

Validate it with the file

Pull the customer export, the paused cohort, the top twenty by lifetime value, event capture and follower demographics. Where those diverge from who has been in the frame is the exact size of the opportunity this rule exists to take.

PART III

IDENTITY

The wordmark, its colorways, the space it needs, the secondary mark, and the twelve things that destroy it.

SUPERMIND

3.1 – THE MASTER WORDMARK

VISUAL DIRECTION IS APPROVED.
THE PRODUCTION MASTER IS NOT YET STORED.

PENDING PROOF

SUPERMIND

THE FOUR STANDING RULES

- 01 **Use the supplied raster only in internal concept development.** It is direction, not artwork.
- 02 **Never retype, redraw, trace or adjust** the spacing, terminals or weight.
- 03 **Do not release print, packaging, foil, engraving, embroidery, signage or fabrication** until the founder-approved vector is stored.
- 04 **When the vector is stored,** this page becomes LOCKED and every raster reference is retired.

WHAT THAT MEANS THIS QUARTER

Digital work proceeds — concept, decks, social, this book. **Nothing that touches a physical substrate ships.** No reprint, no foil proof, no embroidered jacket, no engraved vessel. Getting the vector made is the highest-leverage unblocking task in the identity.

ANATOMY

TRAIT	SPECIFICATION
Weight	Light monoline. Stroke roughly one-eighth of cap height, constant across every character. No bold exists.
Width	Extended. Average letter width is 1.2× cap height.
Tracking	Approximately 0.30em, optically spaced. Part of the artwork; never adjusted to fit.
Case	All capitals. No lowercase, no small caps.
Terminals	Flat and squared, cut on the horizontal or vertical.
Cut stems	The E and D carry no full-height vertical. This is deliberate.
The final D	A bowl, opened and mirrored. The signature. Anyone "correcting" it has destroyed the mark.

It is not a typeface

Set against thirteen candidate faces at matched cap height, the closest skeleton is Audiowide — and it matches on S, P, E and R only. The M, the cut stems and the mirrored D exist in no released font. **This mark is drawn. It cannot be typed.**

3.2 – THREE PRINCIPAL DISPLAYS AND ONE FUNCTIONAL

WORDMARK COLORWAYS

**CROWN GOLD**

Ceremony tier. Cosmic Black, Smoked Green or Black Cherry. Foil, emboss, machined metal. **Never as screen body text.**

**MIRROR SILVER**

Performance tier. Cosmic Black, Smoked Green or Black Cherry. Machined lids, precision surfaces, laboratory contexts.

**SIGNAL WHITE**

The default across campaign and digital. Cosmic Black, Smoked Green or Black Cherry. Most work uses this.

**FUNCTIONAL BLACK**

Ivory and light administrative fields. Documents, invoices, wholesale sheets, internal decks.

tone on tone

Embossing and engraving are approved only after material proofing. A deboss that reads on a rendering can vanish on the actual board stock. The ten-to-fifteen percent lightness window is a target, not a guarantee. Proof the substrate, then approve the treatment.

CHOOSING BETWEEN THEM

- **Screen: Signal White** unless the tier is explicitly ceremonial.
- **Metal: the metal decides.** Gold for ceremony, silver for performance.
- **Document: Functional Black.** Ceremony colorways on an invoice read as costume.
- **Never a fifth colorway.** No tints, no partner colors, no seasonal variants.

3.3 – CLEAR SPACE AND SCALE

HOW MUCH ROOM IT NEEDS

PENDING PROOF

H IS THE HEIGHT OF THE MARK. THE PROTECTED ZONE IS MEASURED FROM ITS BOUNDING BOX.

APPLICATION	MINIMUM
Clear space	0.5H each side. 1H preferred for luxury use.
Print width	30 mm. 25 mm only after foil or engraving proof.
Digital width	160 pixels.
Positive stroke	0.20 mm or greater.
Reversed stroke	0.30 mm or greater.
Foil or relief stroke	0.35 mm or greater.

These become **LOCKED** only after the approved vector passes print, foil, engraving, embroidery and digital proof.

WHY STROKE BEATS WIDTH

A light monoline has no reserve. Reversed out of a dark field it gains apparent weight from ink spread — which is why the reversed minimum is fifty percent higher. Under foil it gains more again. **Set the mark by its stroke, then check the width.**

PLACEMENT

- **Packaging.** Centered on the primary face, upper third. Mark first, variant second, function third.
- **Editorial and social.** Top-centered in the header band, small. It labels the page; it does not compete with the headline.
- **Photography.** Only where a real surface would carry it. Never floated over an image as a graphic.
- **Video.** End frame only, centered on Cosmic Black, held two seconds. Never a persistent corner bug.

IF IT WILL NOT FIT

The mark is never tightened, condensed or shrunk below minimum. The layout changes. On surfaces too small — a sachet, a stick pack, a pin — there is no mark, and identity is carried by color, material and the variant name.

MACHINED INTO A STAINLESS LID. THE MARK SURVIVES THIS SURFACE BECAUSE IT IS MONOLINE AND FLAT-TERMINATED.

3.4 – SUPPLIED DESIGN STUDY

SECONDARY MARK CONSTRUCTION

PENDING PROOF

THE CONSTRUCTION GRID. REFERENCE MATERIAL,
NOT PRODUCTION ARTWORK.

Precise. Energetic. In motion.

The grid records the intended motion and curve logic of the secondary mark — controlled curves meeting sharp directional forms, built to feel fast, stable, scalable and easy to recognise. It is a study. It is not artwork, and it is not yet an identity.

THE ACTIVATION PATH

- 01 Rebuild from the approved master vector
- 02 Optically refine the geometry at small sizes
- 03 Test embroidery, engraving, foil and digital use
- 04 Complete trademark and similarity review
- 05 Activate only after founder approval

CURRENT RULE

The wordmark is the only active identity. The standalone symbol must not appear publicly until the approved vector, optical sizes, trademark review and production proofs are complete.

THE CONSEQUENCE

Pouches in market carry a standalone monogram right now. Under this rule that artwork is non-compliant today, not at some future date. It does not mean pulping stock. It means the next run drops it and no new asset reproduces it.

3.5 – PROHIBITED

IDENTITY MISUSE

THE TWELVE

- 01 No stretching or compression
- 02 No outlines, shadows, glow or unauthorized gradients
- 03 No retyping in any typeface, however close
- 04 No crowding below the clear space in 3.3
- 05 No tracking tightened or opened to fit
- 06 No "correcting" the mirrored D
- 07 No colorway outside the four in 3.2
- 08 No rotation, arcing or setting on a path
- 09 No permanent lockup with a tagline as one artwork
- 10 No reproduction below the minimums in 3.3
- 11 No generation, tracing or upscaling by a model
- 12 No use as a repeating pattern or watermark field

LOCKUPS AND PARTNERSHIPS

- **Never merged** with another brand's mark into one artwork.
- **Separated by a rule.** Both marks on a common baseline, optically matched, hairline between, 1H clear space each side.
- **Order signals the host.** Supermind left when hosting, right when guesting.
- **Affiliates and creators** receive the mark as supplied artwork with this page attached. They may place it; they may not modify it.

Distribution

One folder holds every approved file: the four colorways, transparent PNGs at three sizes, the foil-ready outline once it exists, and this page as a PDF. Anyone who needs the mark gets the folder. **Nobody gets a screenshot of the mark, ever.**

3.6 – THE OPEN DECISION

TWO MARKS ARE LIVE IN MARKET

FOUNDER DECISION REQUIRED

The wordmark is the only active identity. Product shipping this month carries a standalone symbol. One dated decision closes it.

A • The wordmark

DIRECTION APPROVED

On the drinkware, gift box, chocolate, retail fixture and every reference plate in this book. Production vector pending.

B • The legacy pouches

SUPERSEDED IN PART

Heavier logotype with a standalone monogram on brighter red. Non-compliant with 3.4. What customers receive this month.

C • The retail-era artwork

PROHIBITED

Racing Red field, cartoon figures, benefit callouts. Breaks the mascot rule and the register. Do not reorder in any format.

THE RESOLUTION

- 01 **Confirm the wordmark is the brand**, in writing, dated.
- 02 **Fund the production vector and trademark review now.** Nothing physical ships until it is stored.
- 03 **Sell through existing stock unchanged.** No pulping, no relabeling.
- 04 **Mark C is retired immediately** for all new artwork, including marketplace and affiliate creative, which costs nothing to change.
- 05 **Gap-period rule.** Campaign photography shows the wordmark system. Commerce photography shows what actually ships, stated on the register so nobody guesses.

STILL PENDING

Production vector	Outlined, correctly sized, locked master with no live text.
Trademark review	Search and filing on the wordmark as drawn. Confirm provenance — drawn, or set from a licensed face whose licence covers logo use.
Material proofs	Print, foil, engraving, embroidery, digital, at the minimums in 3.3.
Favicon	Until the symbol is activated: a solid Black Cherry field, no letter.

The cost of not deciding

Every asset from today has to show a package. If the package in the photograph does not match the one in the customer's hand, the brand pays twice — in production, then in returns. **At two shoot days a week the remake cost compounds faster than the reprint cost being avoided.**

3.7 – IN APPLICATION

WHAT CORRECT LOOKS LIKE

In every plate the mark is placed as supplied artwork, sized above its minimum, given its clear space, and carried by a real surface rather than floated over an image.

GIFT BOX, FOIL ON COSMIC BLACK.
CEREMONY.

OXBLOOD LEATHER SLEEVE, DEBOSS.

CROWN GOLD FLASK, MACHINED. CEREMONY.

CREATINE TIN, GOLD BAND ON BLACK.

CHOCOLATE CARTON, DEBOSS ON OXBLOOD
BOARD.

GOLD WATER, SCREEN ON CLEAR GLASS.

RETAIL FIXTURE. THE MARK REPEATS; THE
FIELD DOES NOT.

IN HAND. SCALE READS CORRECTLY AGAINST
A PALM.

THE VESSEL FAMILY ON STONE. METALLIC
HIERARCHY VISIBLE.

What these prove. The identity does not depend on a logo being large. It depends on the mark being consistent, the material real, and the surrounding space disciplined. In every plate the wordmark occupies under a tenth of the frame, and the brand is unmistakable.

Restraint, precision and space create presence.

PART IV

TYPOGRAPHY

Four families, four jobs, and a hard rule against a fifth.

4.1 – THE STACK

FOUR FAMILIES, FOUR JOBS

01 • DISPLAY – CAMPAIGN HEADLINES

CLARITY IS THE LUXURY

02 • EDITORIAL SERIF – THE THESIS

Attention is a biological asset.

03 • HOUSE SANS – BODY AND CAPTION

Built for the hours when clarity becomes action. Lion's mane and cordyceps in a coffee that tastes like something you would drink anyway, prepared as a ritual rather than taken as a dose.

04 • MONO – SOURCES, LABELS, TECHNICAL

NET WT. 8.8 OZ (250G) / LOT 0426 / SOURCE: J. NUTR. 2019;149(4)

ROLE	DOES	NEVER DOES
Display	Campaign headlines, out of home, title cards, section openers. All caps, four to twelve words.	Body. Captions. Anything under 18pt. Sentence case.
Editorial serif	The one governing idea on a text cover. Article headings. Pull quotes.	UI. Buttons. Labels. Running body at small sizes.
House sans	Body, captions, product descriptions, subtitles, email, web, packaging variant names.	Campaign headlines. It supports; it does not announce.
Mono	Citations, sources, lot codes, net weights, status labels, page furniture.	Anything read for pleasure. Never a headline.

THE HARD RULE

There is no fifth family. A script, a slab, a novelty face or a platform default is a violation regardless of how good it looks in the moment.

PAIRING

- **One display line per asset.** Never two headlines in one frame.
- **Display and serif do not share a frame** as headline and subhead. Pick which voice is speaking.
- **Every serif thesis gets a sans support line** at about a third the size, or nothing.
- **Mono never carries meaning a customer needs.** If they must read it, set it in the house sans.

4.2 – SCALE AND HIERARCHY

THE SIZES, WRITTEN DOWN

SOCIAL, 1080 × 1350

ELEMENT	SIZE	SETTING
Display headline	88–140 px	Caps, leading 0.92, tracking 0.02em, max 3 lines
Serif thesis	72–110 px	Sentence case, leading 1.12, max 4 lines
Support line	26–32 px	House sans, leading 1.4, max 2 lines
Caption in frame	22–26 px	House sans or mono
Source	18–20 px	Mono, tracking 0.1em
Header wordmark	160–220 px wide	Top center, artwork only

WEB AND EMAIL

Page headline	44–72 px
Section heading	24–32 px
Body	17–19 px, leading 1.6, measure 60–75 characters
Caption	13–14 px
Button	15–16 px, tracking 0.08em, caps

PACKAGING

Wordmark	30 mm minimum, upper third, centered
Variant name	18–24% of wordmark width, tracking 0.2em
Function line	6–7 pt, house sans, sentence case
Net weight, lot	5.5–6 pt, mono
Disclaimer	6 pt minimum, never below the contrast floor

COMPOSITION

- **One governing idea per frame.**
- **Type sits on a grid.** Twelve columns, 64 px margins on a 1080 frame. Left aligned or centered on the frame; never floating.
- **Copy never crosses a face.** Type sits in the negative space the photograph provides, or the photograph was shot wrong.
- **Scrims are flat.** Cosmic Black at 55–70 percent. Never a gradient blur.
- **No orphans, no widows, no hyphenation** in display or serif. Line breaks are set by hand.
- **Punctuation is typographic.** Real apostrophes and quotes, en dashes in ranges, no double spaces, no exclamation marks anywhere.

DATA SET ENTIRELY IN MONO AND HOUSE SANS. NO DISPLAY FACE. THE CHART IS THE HEADLINE.

LICENSING AND FALLBACK

Display

LICENSE FIRST

A geometric condensed sans, caps, tracking +0.02em.

House sans

LICENSE SECOND

A neutral grotesque with a real light and semibold. The workhorse.

Editorial serif

DEFER

A high-contrast open-licence didone.

Mono

DEFER

Any open-licence grotesque mono.

Two families licensed properly beats four used improperly.

Roles never change, only the faces filling them. A fallback is recorded on the asset so a relicense can find what to remake. Web fonts are self-hosted; no third-party font CDN on the storefront.

PART V

COLOR AND MATERIAL

Every value was chosen for how it behaves on a physical surface. Black Cherry is not a screen color that happens to print. It is oxblood that happens to have a hex.

5.1

THE PALETTE

LOCKED

BLACK CHERRY · #55100D
HOUSE. OXBLOOD IN MATERIAL.

COFFEE BEAN · #1A0706
GROUND. NEAR-BLACK WARM.

COSMIC BLACK · #111111
STRUCTURE. TYPE GROUND.

SIGNAL IVORY · #F1EEE7
LIGHT. EDITORIAL GROUND.

SMOKED GREEN · #394439
BOTANICAL. SECTION FIELDS.

LIVING GREEN · #536B45
CULTIVATION. THE LIVE PLANT.

ALABASTER GREY · #D9D9D9
NEUTRAL. STONE AND PAPER.

RACING RED · #DD0200
SIGNAL ONLY. NEVER A FIELD.

THE METALLIC HIERARCHY

METAL	MEANS	LIVES ON
Crown Satin Gold	Inheritance	Large ceremony surfaces — the flask, the tin band, gift box foil.
Crown Mirror Gold	Inheritance, accented	Edges, rims, engraved marks. Never a full surface.
Mirror Silver	Precision	Performance tier — machined lids, creatine, laboratory surfaces.

When gold and silver share a scene, one owns about seventy percent of the metallic presence. An even split reads as indecision, and indecision is the one thing this brand cannot look like.

RACING RED

A signal, not a scheme. A rule, a dot, a single button, a status chip — areas measured in square millimeters.

Any asset where Racing Red is the dominant field belongs to the retail era and is superseded.

GOLD CEREMONIAL, SILVER PERFORMANCE, BLACK DAILY, OXBLOOD COFFEEHOUSE. ONE MATERIAL ARGUMENT PER OBJECT.

GOLD BAND ON COSMIC BLACK. CEREMONY MARKING A PERFORMANCE PRODUCT — THE EXCEPTION, AND DELIBERATE.

5.2

LEGIBILITY AND EXPORT

PREFERRED

CONTRAST MINIMUMS

USE	MINIMUM RATIO
Body copy on any ground	4.5 : 1
Headlines 18pt and above	3 : 1
Captions and technical labels	4.5 : 1
Wordmark on photography	3 : 1 against the local field
Decorative tone-on-tone	Exempt. Carries no required information.

The combination to avoid

Black Cherry on Cosmic Black is not legible for text. It is a valid material pairing for embossing, engraving and tone-on-tone fields where nothing must be read. Prohibited for body copy, captions, claims and any call to action.

Illegible for text CHERRY ON COSMIC · 1.3:1	Legible for text IVORY ON COSMIC · 15.8:1
---	---

SAFE TEXT PAIRINGS

Signal Ivory on Cosmic Black	Primary dark layout
Signal Ivory on Black Cherry	Campaign fields
Cosmic Black on Signal Ivory	Editorial and administrative
Signal Ivory on Smoked Green	Botanical and section openers
Crown Gold on Cosmic Black	Eyebrows and labels only, never body

MINIMUM SIZES, SCREEN

Body	16 px
Caption	12 px
Technical label	10 px, tracked
Subtitle burn-in	40 px on a 1080 frame
Wordmark	160 px

EXPORT

- **Social master** 1080 × 1350, embedded sRGB, critical copy inside a centered 1080 square
- **Story and vertical video** 1080 × 1920, safe margins 250 px top and 320 px bottom
- **Long form** 3840 × 2160 master, 1920 × 1080 delivery, embedded Rec.709
- **Print** 300 ppi at final size, 3 mm bleed, 5 mm safety
- **Web imagery** long edge 2000 px max, quality 78+, sRGB

Alt text

Every published image carries alt text describing the behavior first, the environment second and the product last. The same law as the frame itself: the behavior carries the brand.

TONE ON TONE DONE CORRECTLY. NOTHING HERE IS REQUIRED READING; THE MATERIAL IS THE MESSAGE.

PART VI

THE FOUR MODES

Every frame belongs to exactly one. If it cannot be assigned, it is not a Supermind frame yet.

6.1

THE FOUR MODES, ON SIGHT

LOCKED

ANALOG ARCHIVE

The emotional center. Warm coffeehouses, libraries, writing tables, kitchens, records, garden chess, salons, bonfires. Honest 35mm character, 35 or 50mm lens, warm practicals at 3200–4200K, readable brown shadows, visible grain. Black intellectual life gathered around thought.

LUXURY LABORATORY

Product as precise cognitive artifact. Warm gold, mirror silver, smoked green, stone, marble, clear glass. 70–100mm or macro, f8–f11, controlled highlights, revealed seams, grain and embossing, every edge legible.

LIVING INTELLIGENCE

Plants as cultivation, not decoration. Botanical coffeehouses, greenhouse research, ingredient cultivation, mature trees, natural daylight, believable greens: cacao, coffee, olive, fig, oak, ficus, ferns, herbs. Never a decorative jungle.

RITUAL IN MOTION

The lifestyle engine. Hikes at golden hour, gym strength work, cacao preparation, long-table gathering, journaling, bonfires at dusk. 28, 35 or 50mm, natural directional light, fast shutter, real motion, product inside the action rather than interrupting it.

The plants rule

Living plants appear in at least three of every nine published frames. Real species, believable ecology, plausible care. This is what keeps a wellness brand from looking like a laboratory catalogue, and it is the easiest rule to lose in a busy week.

Product's four states

Hero for launch and material stories. **Tool** inside a real ritual. **Evidence** naturally present. **Absent** — the behavior carries the brand. Reusable vessels are the visible standard: gold ceremonial, silver performance, oxblood ceramic coffeehouse, clear glass water. Never generic cups, disposable plastic or third-party branded vessels.

6.2

LIGHT, GRADE AND WARDROBE

LIGHT

MODE	SOURCE
Analog Archive	Warm amber practicals, 3200–4200K. Lamps, windows, fire. One committed key.
Luxury Laboratory	Controlled high-CRI soft source. Hard enough to reveal seam, grain and emboss.
Living Intelligence	Natural daylight through glass or canopy. Never supplemented to flatness.
Ritual in Motion	Natural directional light. Golden hour or hard midday, committed either way.

GRADE

- **Shadows lean warm brown and burgundy.** Never gray, never blue.
- **Blacks stay matte and retain detail.** Crushed blacks are a prohibited element, not a style.
- **Highlights warm and cream-toned.** No clipped white.
- **Skin keeps its texture.** No smoothing, no frequency separation on brand work.
- **One crimson accent** maximum per frame.
- **Never a blanket orange cast.** Warmth comes from the source, not the grade.

WARDROBE

Tailoring, knitwear, natural fibers, quiet technical activewear. **Black, ivory, tobacco, oxblood, charcoal, dark green.** Restrained gold or silver jewelry. No fluorescent color, no loud prints, no wellness-uniform costume.

HAIR AND SKIN

Natural hair — locs, coils, waves, fades, braids. Real skin texture preserved at every size. This is a casting and retouching rule, and it is not negotiable at any deadline.

PROHIBITED IN EVERY MODE

Plastic foliage, fake plant walls, fantasy ecosystems	Mascots, exotic animals, staged wildlife
Alcohol, tobacco, intoxication as the social image	Generic cups, plastic bottles, third-party vessels
Influencer posing and reaction faces	Biohacker sterility and clinical white grounds
Sepia nostalgia filters, costume reenactment	Implying an ingredient the product does not contain

CULTIVATION, REAL SPECIES, REAL CARE. LIVING INTELLIGENCE AT ITS MOST LITERAL.

PART VII

THE REFERENCE SET

Three brands we learn from, one we compete with, and exactly where Supermind sits between them.

7.1 – ACKNOWLEDGING THE FIELD

WHO WE ARE LEARNING FROM, AND WHY

Naming references is not imitation. It is how a house avoids reinventing solved problems and stays honest about what it has not yet built. Four brands, read structurally.

01 DAVID The visual argument. One object, one hard light, one number. Taste and feel over features. Bodies as evidence. Documentary profiles.	02 CHAMBERLAIN The creator engine. The founder is the audience. Personality carries the product, community carries the repeat.	03 MAGIC MIND The story machine. Mechanism explained constantly. Profiles published as a series. Affiliate economics built in.	04 RYZE The category control. Soft neutrals, sunlit kitchens, calm and generic. Proof the category punishes nothing.
---	--	--	--

READ SIDE BY SIDE

DIMENSION	DAVID	CHAMBERLAIN	MAGIC MIND	RYZE	SUPERMIND
Visual argument	Sculptural drama. One object, one hard light, one number.	Flat bright color, characters, playful pattern.	Clinical green and yellow, bottle as repeated icon.	Soft neutrals, sunlit kitchens, hands and mugs.	Sculptural drama in a warm archive. David's light and restraint applied to oxblood, gold and real rooms.
Hero subject	Product as monolith, trained body as evidence.	The founder. Product is her accessory.	The mechanism and a named performer's routine.	The mug in a morning, endlessly.	The person's composure, product second. Behavior carries the brand; the object confirms it.
Light	One hard source, deep black shadow, cold ground.	Flat, even, bright. No shadow language.	Flat studio and phone-lit UGC.	Soft window daylight. Pleasant, forgettable.	One committed source, warm brown shadow. David's contrast at 3200–4200K, not daylight-cold.
Copy register	Flat numeric confidence. Taste and feel.	Conversational, funny, first person.	Mechanism-forward, benefit-stacked, offer-heavy.	Gentle wellness language, low specificity.	Declarative and unhurried. Four to twelve words, said in a low voice.
Growth engine	Founder credibility, documentary profiles.	The creator's own audience, merch, community.	Affiliate army, podcast reads, subscription-first.	Paid social at volume, discount-led.	Founder audience + affiliate machine + the room. Keys is Chamberlain's asset with Magic Mind's economics.
What we take	One idea per frame. Hard light. Taste and feel. The profile format.	Founder-as-content. Community with a name and objects.	Mechanism as content. Published profiles. Affiliate economics.	Nothing visual. It is the floor.	—
What we leave	Explicit body display. Macro-count culture. Cold clinical grounds.	Mascots, meme humor, flat bright color.	Urgency spam, discount stacking, claims that outrun evidence.	Softness as strategy. Generic mornings. Price competition.	—

WHERE SUPERMIND SITS

David's drama, Chamberlain's engine, Magic Mind's economics, in a Black-led archive world nobody else in the category occupies. Every one of them publishes on a schedule. We have better material, a better founder and a better story, and no schedule. **The gap is not taste. It is cadence.**

HOW TO USE THIS PAGE

Argue down the columns, not across the rows. The question is never "does this look like David." It is "does this frame make the move in the last column."

Reference brands are analysed structurally rather than reproduced — their imagery is their property, and this book circulates to crew, creators and partners.

7.2 – THE DAVID GEOMETRY

FOUR COMPOSITIONS, DIAGRAMMED

Structural diagrams of the four layouts David repeats, drawn rather than reproduced. What transfers is not their photograph. It is the geometry underneath it — which is learnable and free.

01 • THE MONOLITH
OBJECT CENTERED, 60–65% OF
FRAME HEIGHT, SCALED PAST LIFE
SIZE. ONE HARD KEY UPPER LEFT.
REAL CAST SHADOW. GROUND FLAT
AND EMPTY.

02 • THE NUMBER
FLAT COLOR FIELD. A SINGLE
FIGURE AT DISPLAY SCALE
CARRYING THE WHOLE CLAIM.
PRODUCT DEMOTED TO A CORNER.
NOTHING COMPETES.

03 • THE CROSS-SECTION
EXTREME MACRO OF THE INTERIOR.
FULL-BLEED TEXTURE, RAKING
LIGHT, NO TYPE. THE FRAME
ARGUES TASTE BEFORE FUNCTION.

04 • THE FIGURE
SUBJECT OFFSET, LIT HARD FROM
ONE SIDE, HALF THE FRAME
FALLING TO BLACK. TYPE SITS IN
THE DARK SIDE. THE BODY IS
EVIDENCE, NOT DECORATION.

THE SUPERMIND READING OF EACH

01 → PRODUCT AS MONOLITH,
WARM GROUND

02 → THE CLAIM AT DISPLAY
SCALE

03 → TEXTURE AND TASTE, FULL
BLEED

04 → FIGURE, ONE SIDE LIGHT,
HALF UNLIT

The four numbers

One committed light source. **One** idea per frame. **50 percent** of the frame permitted to fall to black. **60 percent** of frame height for a hero object. Those four constraints produce the drama. Everything else is style on top.

BRIEFING A SHOT IN THIS GEOMETRY

COMPOSITION monolith / number / cross-section / figure
KEY one source, upper left, 45 degrees, hard
FILL negative. black flag camera right
SHADOW cast, real, allowed to run off frame
SUBJECT 60 percent of frame height
TYPE one line, in the unlit half, or none
GROUND oxblood, cosmic black or ivory. flat.
TEMP 3200-4200K. never daylight-cold.

7.3 – THE TRANSLATION

THEY ARE SEXY BY EXPLICITNESS. WE ARE SEXY BY SOPHISTICATION.

Sophisticated is the kind of word a team nods at and then ignores at the shoot. Here is what it means at the frame level.

SOPHISTICATION IS WHAT IS WITHHELD

EXPLICIT	SOPHISTICATED
The body displayed	The body implied — posture, line, how clothing sits
Skin as the subject	Skin as light — a collarbone, a jaw, a hand, a nape
Eye contact that solicits	Eye contact that assesses, or a subject unaware
Undressed	Dressed extremely well, and one thing undone
The invitation stated	The invitation withheld — the viewer leans in
Bright, flat, total	Half in shadow, one source, detail preserved
Volume	Stillness

THE OPERATING RULE

Desire in this brand comes from competence, composure and restraint — never from exposure. The most magnetic frame Supermind can produce is a person entirely in control of themselves, extremely well dressed, half-lit, doing something difficult without strain. That reads as power. Power is what the audience actually wants.

THE THREE TESTS

- 01 **Would she post this about herself?** If not, it is being taken rather than given.
- 02 **Does it survive the sound off and the product removed?** If only the body holds it, there is no brand in it.
- 03 **Is anything actually withheld?** If nothing is, nothing was composed.

COMPOSURE AS THE SUBJECT. DRESSED, LIT FROM ONE SIDE, ENTIRELY IN CONTROL OF THE FRAME.

ATTENTION AS THE EROTIC OBJECT. NOBODY IS PERFORMING FOR THE CAMERA AND THE FRAME IS STRONGER FOR IT.

What this protects

The primary audience is a Black woman between twenty-five and forty who has been marketed to explicitly her entire adult life. Sophistication is not prudishness. It is the recognition that she is the buyer, not the subject being sold — and the brand that understands the difference is the one she keeps.

PART VIII

MAKING THE WORK

The feed, the forms, the shoot day, the motion, the sound.
Everything needed to produce a month of content
without asking a single new question.

8.1 – THE FEED LAW

NINE POSTS, EVERY TIME

LOCKED

The grid is read as a field, not as posts. Nine at a time, mixed to this ratio. A customer's impression of the brand is formed by the field, never by the single asset the team spent the most time on.

SLOT	COUNT	WHAT IT IS
Editorial or research	3	A thesis on a plain ground, or a data object. Cheapest to make, highest saves.
Human life or ritual	2	A person inside a real practice. No product mention required.
Product or material	2	Luxury Laboratory. Hero, tool or evidence.
Nature or ingredient	1	Botanical macro, cultivation, real species.
World or institution	1	The room, the table, the gathering, the fixture.

THE FOUR CONSTRAINTS ON THE FIELD

- Never three text covers in a row
- Never three product heroes in a row
- Product dominant in no more than three of nine
- Plants visible in at least three of nine
- Women lead at least half of the frames carrying people

A COMPLIANT FIELD. THREE TEXT COVERS, FOUR PHOTOGRAPHIC, TWO RESEARCH OBJECTS. NO FRAME CARRIES TWO DISPLAY LINES.

Satellites

This law governs the flagship grid. Founder channels, the club and event accounts run a lighter field mode — the register holds, the ratio relaxes. That exception is signed once and written down, not decided post by post.

8.2 – THE FOUR CONTENT FORMS

HOW EACH ONE IS BUILT

Four forms cover everything the brand publishes. Each has a layout, a caption formula and a job. Nothing else needs inventing.

A • EDITORIAL COVER
Serif thesis on ivory or cosmic black. One idea, four to eight words. **Caption:** claim, one sentence of mechanism, one of practice, source line.

B • PHOTOGRAPHIC STORY
A person inside a real practice. No product mention. **Caption:** name the person or place, what they were doing, what it means.

C • RESEARCH OBJECT
A chart, a diagram, a mechanism. Mono and house sans only. **Caption:** what was studied, what it found, what it does not yet prove, citation.

D • PRODUCT RITUAL
Product inside the moment it belongs to. **Caption:** the moment, the formula in plain words, where to get it. One line, no stacking.

THE PUBLISHING WEEK

DAY	FORM	MADE FROM
Monday	A • Editorial	The headline library. Fifteen minutes.
Tuesday	D • Product ritual	Shoot-day b-roll bank.
Wednesday	C • Research	The claims file plus one citation.
Thursday	B • Story	Profile stills or event coverage.
Friday	A or C	Whichever the field is short of.
Sunday	B • The room	The hike, the table, the gathering.

Six a week, field always in balance. Two need no new photography.

WHAT ONE SHOOT DAY PRODUCES

BLOCK	CAPTURED
Set and light	Stone or walnut, matched vessels, product placed.
B-roll, 15 min	Pour, steam, hands, cup set down, macro, room wide. No talent. Feeds six months.
Cold open	Thirty seconds of pure ritual, no dialogue. Opens every cut.
Main	Uninterrupted conversation. A locked wide, B vertical.
The Turn	The question the piece ends on. Most clipped moment.
Pickups	Six verticals, each hook written in advance.
Stills	Thirty frames minimum, portrait and product.
Wrap	Footage transferred and named on site before anyone leaves.

Output: 1 long-form episode • 6 pre-hooked verticals • 30 stills • 1 reusable b-roll bank • 2 quote graphics • 1 fifteen-second ad cut.

Nothing is shot without the cut plan written first. The editor gets a numbered list, not a folder.

8.3 – THE FLAGSHIP FORMAT

THE DOCUMENTARY PROFILE

PREFERRED

One format, borrowed from the strongest thing in the reference set and rebuilt in our register. Real people filmed inside their real routine. The highest-trust content the brand can make, and the cheapest to make well.

THE SUBJECT

Not an influencer. Someone whose life already demonstrates the thesis — a surgeon, a chef, a trainer, a portfolio manager, a novelist, a barrister, a founder. **Cast to the ratio in 2.3.** They must already have a morning practice; the product joins it rather than replacing it.

THE STRUCTURE – SIX TO NINE MINUTES

BEAT	CONTENT
00:00	Cold open. Ritual only, no dialogue. Foley forward.
00:30	They say their name and what they do, once, plainly.
01:00	The morning, in real time. Unnarrated where possible.
02:30	The work. What the hours demand of their attention.
05:00	The cost. What they gave up, got wrong, or nearly broke.
07:00	The Turn. One question, answered to camera.
08:00	End frame. Wordmark on Cosmic Black. No offer, no link, no icons.

THE RULE THAT MAKES IT AUTHENTIC

The product appears at most twice and is never named on camera. It is on the counter because it is on their counter. Any subject who cannot be filmed without the product being handed to them is the wrong subject.

THE REGISTER: REAL WORK, REAL ROOM, ONE COMMITTED LIGHT, NO PERFORMANCE FOR THE CAMERA.

PRODUCTION

- **Half a day, two crew.** Camera A locked wide on 35 or 50mm, B handheld vertical for pickups.
- **Practical light first.** Bounce and negative fill only. Nothing that announces a crew was there.
- **Sound is the budget line.** Lav, room tone, dedicated foley passes. Bad sound reads as fake faster than bad picture.
- **Score enters late.** Classical primary, jazz for archive rooms.

CADENCE

One per month, twelve a year, as a named series. Long form on YouTube and the site; verticals seed the feed for three weeks; the written profile carries the email; the subject shares their own episode, which is the distribution model and costs nothing.

Why this format first

It scores on every axis the brand is short of at once: it casts to the ratio, produces the plants-and-people frames the feed law needs, generates the copy library from real speech, and gives affiliates something to share that is not an ad.

8.4

SLOW. DRAMATIC. COMPOSED.

Unhurried and deliberately lit. One committed source, deep readable shadows, long holds punctuated by a single decisive cut on the reveal. The film is about how the moment feels, never about how the product performs.

CAMERA

Movement	Locked or gliding. Slider, gimbal, tripod. Never shaky, never whip-panned.
Hold	Three to six seconds narrative, one to two on a reveal.
Cut rhythm	Long, long, long, hard cut. Speed ramps only in drop films.
Frame rate	24 fps narrative. 60 or 120 for pours, steam, inserts.
Grade	Identical law to stills.

FORMATS

Long form	16:9, 24 fps
Vertical	9:16, safe 250 top / 320 bottom
Feed	4:5 or 1:1
Drop film	9:16 and 1:1, 15–30 sec

THE 15-SECOND DROP FILM

0:00 Hard-lit product or hand, one motion
 0:03 The line. Four to eight words.
 0:06 The ritual beat – pour, sip, close
 0:11 Product held, still, two seconds
 0:13 Wordmark on Cosmic Black, 1.5 sec

SOUND

REGISTER	USE
Classical — primary	Brand films, drop films, product, ceremony. Solo piano, cello, restrained strings. Slow, wide dynamic range, space between notes.
Jazz — alternate	Archive scenes, coffeehouse, gathering. Upright bass, brushed drums, muted horn.
Foley only	Ritual inserts and macro product. No music. The pour, the stir, the cup on stone.

RITUAL FOLEY — FORWARD IN THE MIX

The pour. The stir against ceramic. The cup on stone. Pen on paper. A page turning. Fire crackle. Footfall on trail. Breath during training. **These are brand assets and get recorded properly, never replaced with library effects.**

MIX

- Dialogue and foley lead; music sits beneath
- Music enters after the first beat of action, never on frame one
- No stingers, risers or whooshes
- -14 LUFS social, -16 LUFS long form
- Every video legible with the sound off

TITLES

Title card: Cosmic Black or Black Cherry field, display caps, held three seconds, slow fade only. **Lower third:** house sans, name over role, cream on a transparent scrim. **Subtitles:** burned in on all vertical, minimum 40 px, two lines max, never mid-frame. **End frame:** wordmark centered, two seconds, one line max, no icons.

Prohibited: trap or drill as the default score, trending audio, corporate uplift, synth risers, voice-of-god narration, kinetic typewriter type, anything with an urgency arc.

PART IX

THE PROMPT SYSTEM

Every law in this book, made promptable. Paste-ready blocks, three publishing tiers, and the line that never moves.

9.1 – WHAT GENERATED WORK MAY SHIP

THREE TIERS

PENDING FOUNDER APPROVAL

A blanket ban does not produce more photography. It produces empty weeks. A tier produces both — real photography wherever a human appears, generated work where nothing human is at stake.

TIER 1 • PUBLISHABLE

PREFERRED

No human subject. Abstract fields, material studies, botanical macro, texture, light, research objects, ingredient forms. Publishable once the approved wordmark is composited.

TIER 2 • CONDITIONAL

PENDING PROOF

Product-adjacent, no identifiable face — hands, silhouettes, over-shoulder, environments. Publishable when labeled in the register and never presented as documentary evidence of a real moment.

TIER 3 • INTERNAL ONLY

PROHIBITED FOR RELEASE

Any identifiable synthetic human. Concept, art direction, pitch, reference. Requires a production reshoot before public release.

THE PERMANENT LINE

A synthetic human is never presented as a real person. No generated face carries a testimonial, a review, a customer story or an implied endorsement. That does not move, at any tier, for any campaign, under any deadline.

THE WORDMARK RULE

Never let a model draw the wordmark. Generative systems corrupt letterforms reliably. Every prompt carries a negative instruction against text and lettering. The approved mark is composited afterward at the sizes in 3.3.

PACKAGING

Prompt packaging as unbranded with a blank label field, then composite approved artwork. A generated approximation of a Supermind package is Tier 3 and never reaches a customer.

REQUIRED ON EVERY GENERATED ASSET

- Asset identifier in the register
- Declared tier
- Prompt and model recorded
- Date and operator
- Replacement requirement if Tier 3

Save the prompt with the asset

Not in a chat window. A prompt that produced a usable frame is a reusable production asset. A prompt lost in a scroll-back is a frame the brand has to invent twice.

9.2 – ASSEMBLY

HOW TO BUILD A PROMPT

Write the scene in one or two sentences. Then append the blocks. Every prompt carries THE WORLD, COLOR AND LIGHT, one MODE and the NEGATIVE. Add CASTING when a person appears and PRODUCT when the product appears.

01 Your scene, one or two sentences	02 THE WORLD always	03 CASTING if people appear	04 COLOR AND LIGHT always
05 ONE OF FOUR MODES always	06 PRODUCT RULES if product appears	07 NEGATIVE PROMPT always	08 Declare the tier before release

BLOCK 01 – THE WORLD

LOCKED TEXT

SUPERMIND is cognitive luxury made tangible – a Black-led wellness house where composed intelligence is the highest form of status. Ancestral warmth and future precision coexist in one civilization: warm archive coffeehouses, luxury laboratory product scenes, plant-filled living intelligence, and ritual in motion – hikes, training, cacao ceremonies, bonfires, writing. The scene must look physically photographable: real light, real materials, real ecology. The world stays recognizable even when the product is absent. Quiet authority – restraint, precision and space create presence. No hype, no chaos, no costume nostalgia.

BLOCK 02 – CASTING

LOCKED TEXT

Black, African, African-American, mixed and brown women and men, ages 25 to 40, clearly adult, in shape, attractive and put together. Women lead the frame unless the brief states otherwise. They read as thinkers, builders, athletes, artists and hosts: intelligent, healthy, socially connected. Natural skin texture, real hair – locs, coils, waves, fades – no artificial smoothing. Composed expressions, relaxed authority rather than excitement. Wardrobe: tailoring, knitwear, natural fibers, quiet technical activewear in black, ivory, tobacco, oxblood, charcoal or dark green; restrained gold or silver jewelry; no fluorescent color, no loud prints, no wellness-uniform costume. For heritage and archive scenes only, elders may appear as part of intergenerational Black intellectual life – dignified, central, never decorative.

9.3 – THE REMAINING BLOCKS

BLOCK 03 – COLOR AND LIGHT LOCKED TEXT

Master palette: Black Cherry #55100D expressed as oxblood material, Coffee Bean #1A0706, Cosmic Black #111111, Signal Ivory #F1EEE7, Alabaster Grey #D9D9D9, Smoked Green #394439, Living Green #536B45, with Racing Red #DD0200 as a small signal accent only. Metals: Crown Satin Gold on large surfaces with Crown Mirror Gold accents, Mirror Silver for precision – when gold and silver share a scene one owns about seventy percent of the metallic presence. Gold means inheritance, silver means precision, black cherry means house identity. Light: one committed source – warm amber practicals at 3200 to 4200K in archive scenes, natural daylight in living scenes, controlled high-CRI soft sources for product. Shadows lean warm brown and burgundy, never gray. Blacks stay matte and retain detail. Highlights warm and cream-toned. Every reflection explains its source. Never a blanket orange filter, never neon, never flat even lighting.

BLOCK 04 – THE FOUR MODES PICK EXACTLY ONE**ANALOG ARCHIVE** – the emotional center

Warm coffeehouses, libraries, writing tables, kitchens, records, garden chess, salons, bonfires. Honest 35mm character, 35 or 50mm lens, warm practicals, readable brown shadows, visible grain. Black intellectual life gathered around thought.

LUXURY LABORATORY

Product as precise cognitive artifact. Warm gold, mirror silver, smoked green, stone, marble, clear glass. 70 to 100mm or macro, f8 to f11, controlled highlights, revealed seams, grain and embossing, every edge and label legible.

LIVING INTELLIGENCE

Plants as cultivation, not decoration. Botanical coffeehouses, greenhouse research, ingredient cultivation, mature trees, natural daylight, believable greens: cacao, coffee, olive, fig, oak, ficus, palms, ferns, herbs. Never a decorative jungle.

RITUAL IN MOTION

Hikes at golden hour, gym strength work, cacao preparation, long-table gathering, journaling, bonfires at dusk. 28, 35 or 50mm, natural directional light, fast shutter, real motion, product inside the action rather than interrupting it.

BLOCK 05 – PRODUCT RULES

Product may be hero, tool, evidence or absent – the behavior carries the brand. Packaging: unbranded oxblood or black-cherry metallic pouches and wrappers with a completely blank label field, gold family for ceremony, mirror silver for performance. Reusable vessels are the visible standard: gold ceremonial, silver performance, oxblood ceramic coffeehouse, clear glass water. Never generic cups, disposable plastic bottles or third-party branded vessels. Never imply an absent ingredient.

BLOCK 06 – NEGATIVE PROMPT

No text, no lettering, no logos, no watermarks. No neon, no pastels, no blanket orange cast, no crushed blacks, no flat lighting, no gray shadows. No sepia nostalgia filter, no costume reenactment. No plastic foliage, fake plant walls or fantasy ecosystems. No mascots, exotic animals or staged wildlife. No alcohol, tobacco or intoxication. No influencer poses, biohacker sterility, artificial skin smoothing or generic wellness brightness. No one who reads as a minor. One intentional idea per frame.

9.4 – WORKED EXAMPLES

THREE ASSEMBLED PROMPTS

Each opens with the scene line, then appends the blocks named beneath it. The plate above each is the target register, not the output.

Campaign still

SCENE

A woman in a silk wrap preparing cacao at a marble counter before sunrise, steam rising, her hands and the whisk in focus.

APPEND

WORLD + CASTING + COLOR AND LIGHT + RITUAL IN MOTION + PRODUCT + NEGATIVE

TIER 3 identifiable synthetic human. Art direction only. Reshoot required.

Product still

SCENE

An unbranded oxblood dropper bottle beside a gold vessel on green marble, olive branch shadow raking across the surface.

APPEND

WORLD + COLOR AND LIGHT + LUXURY LABORATORY + PRODUCT + NEGATIVE

TIER 1 no human subject. Publishable once the approved wordmark is composited.

Botanical macro

SCENE

Macro of lion's mane and cacao on stone in a greenhouse, water on the leaf, shallow depth, morning daylight through glass.

APPEND

WORLD + COLOR AND LIGHT + LIVING INTELLIGENCE + NEGATIVE

TIER 1 real species, no implied ingredient claim. Publishable.

BEFORE ANY GENERATED ASSET RELEASES

- It passes the Same Timeline Test exactly as a photograph would
- Its tier is declared and recorded
- The wordmark is composited, never generated
- Packaging shown is approved artwork, never an approximation
- No claim is implied the claims file does not support
- It scores nineteen of twenty-two at the gate

PROMPTING MOTION

Slow-paced and dramatic: chiaroscuro lighting, one hard committed source, deep readable shadows, deliberate composition, long holds punctuated by one decisive cut on the reveal. Camera locked or gliding – never shaky, never whip-panned. Ritual foley forward – the pour, the stir, the cup on stone – under slow classical strings or sparse jazz. Unhurried, dramatic, composed. The film is about how the moment feels, not what the product does.

PART X

WORDS

Twenty approved lines, four caption formulas, and the claims language the product legally requires.

10.1 – THE HEADLINE LIBRARY

TWENTY LINES THAT CARRY THE VOICE

PREFERRED

Four to twelve words. All caps in the display face for campaign, sentence case in the serif for a thesis cover. Declarative. No exclamation marks. Rotate; never stack two in one asset.

CLARITY AND ATTENTION

- Clarity is the luxury.
- Attention is a biological asset.
- You don't get tired. You lose clarity.
- Protect the source of every decision.
- Build the mind before the day.

RITUAL AND DISCIPLINE

- Drink with intention.
- Discipline has a flavour.
- Start now. Always finish.
- The ritual holds.
- Rituals create freedom.

MECHANISM AND PROOF

- Caffeine borrows energy. Cordyceps builds it.
- Deep work has a physiology.
- The body ages. The mind can keep building.
- Your mind leaves signals.
- Built for the hours when clarity becomes action.

WORLD AND COMMUNITY

- Intelligence grows in community.
- A clear mind changes the room.
- Designed for minds that lead.
- Nature, refined by intention.
- The future belongs to the focused.

WORDS THAT NEVER APPEAR

hustle • grind • manifest • tribe • vibes • boost • hack • game-changer • unlock your potential • let's go • obsessed • addicted • miracle • secret • detox • cleanse • superfood as a claim • any exclamation mark

THESIS • SERIF, IVORY GROUND

THESIS • SERIF WITH SUPPORT LINE

CAMPAIGN • DISPLAY ON PHOTOGRAPHY

CAMPAIGN • DISPLAY ON ABSTRACT FIELD

THE SAME LIBRARY, FOUR TREATMENTS. THE LINE DOES NOT CHANGE; THE VOICE CARRYING IT DOES.

WHERE EACH FAMILY GOES

Clarity and attention	Campaign headlines, hero frames, out of home, top of site.
Ritual and discipline	Product pages, subscription flows, inserts, retention email.
Mechanism and proof	Editorial carousels, research posts, paid media carrying a claim.
World and community	Events, gatherings, the club, founder content, partnerships.

10.2 – FORMULAS

HOW EACH FORM IS WRITTEN

CAPTION FORMULAS

FORM	FORMULA
A · Editorial cover	Claim. One sentence of mechanism. One sentence of practice. Source line.
B · Photographic story	Name the person or place. What they were doing. What it means. No product mention.
C · Research object	What was studied. What it found. What it does not yet prove. Citation.
D · Product ritual	The moment. The formula in plain words. Where to get it. One line, no stacking.

CALLS TO ACTION

- Link in bio.
- Begin the ritual.
- Join us Sunday.
- Subscribe and hold the practice.
- Full breakdown in the description.

Never: "don't miss out," "last chance," "only X left," "tap tap tap," or any countdown language.

PRODUCT DESCRIPTION TEMPLATE

- 01 Name and format
- 02 One line of functional position
- 03 Formula, plain language, exact
- 04 The ritual it belongs to
- 05 Taste, honestly described
- 06 What it is not, if useful
- 07 Required disclaimer

SUBJECT LINES

The first hour · What cordyceps actually does · We opened the ledger · Sunday, 7am, the trail · A note on the new pouch · The ritual, written down

DO AND DO NOT – THE SAME IDEA, TWICE

DO NOT WRITE	WRITE
Boost your energy and crush your day!	Energy that holds through the hours that matter.
This miracle mushroom cures brain fog	Lion's mane is studied for its role in supporting cognitive function.
Detox your body from toxins	Ingredients chosen for what they add, not what they promise to remove.
The best coffee on the planet, period	The best-tasting mushroom coffee we know how to make.
Join the tribe and unlock your potential	Join us Sunday. Bring a cup.
Obsessed with this morning routine	The morning belongs to whoever prepares it.

THE FIVE VOICE QUALITIES, AS A TEST

- **Precise.** Would a researcher let this sentence stand?
- **Composed.** Does it work said quietly?
- **Warm.** Does it sound like someone who wants you in the room?
- **Declarative.** Does it state rather than persuade?
- **Unhurried.** Is there urgency the reader did not bring themselves?

VERTICAL HOOKS

Written before the camera turns on. Open on a statement or an action, never a greeting. No "wait for it." The claim must survive the claims file.

The test for any line

Read it aloud in a low voice. If it needs volume, energy or a smile to land, it is not the brand.

10.3 – REGULATORY LANGUAGE

WHAT MAY AND MAY NOT BE SAID

PENDING LEGAL REVIEW

Drafted to the general US dietary-supplement standard. **Requires sign-off by qualified counsel before publication.** A starting point, not a substitute.

THE DISTINCTION THAT GOVERNS EVERYTHING

PERMITTED	NOT PERMITTED
Structure and function. How an ingredient relates to the normal structure or function of the body.	Disease claims. Any statement that the product diagnoses, treats, cures, mitigates or prevents a disease.

CONSTRUCTIONS THAT GENERALLY WORK

- Supports cognitive function
- Helps maintain focus and mental clarity
- Supports the body's natural energy production
- Traditionally used to support ...
- Studied for its role in ...
- Contains lion's mane and cordyceps

CONSTRUCTIONS TO AVOID ENTIRELY

- Treats, cures, prevents, heals, reverses
- Reduces the risk of any named condition
- Any named disease alongside the product
- Anti-inflammatory, immune-boosting, anti-anxiety
- Clinically proven or doctor recommended, without documentation
- Comparative superiority to a drug or a competitor outcome

Accuracy creates authority. False certainty destroys it.

REQUIRED DISCLAIMER

These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

On packaging carrying a structure-function claim, on the product detail page, and in any asset making a functional statement. Legible, never tone-on-tone below the contrast floor in 5.2.

FLAGS FOR THIS CATALOGUE

- **CBD products** carry their own regulatory and platform restrictions and separate advertising limits. Every CBD asset is a distinct review track.
- **Creatine** claims are well supported and still structure-function only.
- **Testimonials** require written permission, must reflect a typical result, and may never be assembled from a synthetic face.
- **Affiliate and creator content** requires clear disclosure of the material connection, and affiliates get the same banned-words list.

Chain of approval

Writer drafts → claims checked against this list → anything new or ambiguous goes to counsel → approved language enters the claims file → the claims file, never memory, is what future copy is written from.

PART XI

THE GATE

Nothing leaves this house without passing it. Twenty-two points, nineteen to release, no prohibited element at any score.

11.1 – THE RELEASE GATE

TWENTY-TWO POINTS

LOCKED

Eleven categories, scored zero to two by the editor. **Nineteen of twenty-two releases. Anything below holds.** A single prohibited element fails the asset outright, whatever the total.

#	CATEGORY	SCORES 2 WHEN
01	Same Timeline Test	All four questions pass without argument.
02	One governing idea	A stranger names the idea in three seconds.
03	Light	One committed source, warm shadow, every reflection explained.
04	Plants	Present and real, or correctly absent for the form.
05	Materials	All real, all photographable.
06	Casting ratio	Meets the frame rule and reads as the primary audience.
07	Typography	Correct family, size, contrast, hand-set line breaks.
08	Identity	Mark placed as artwork, above minimum, clear space respected.
09	Claim	Accurate, sourced, inside the claims file.
10	Product and status	Correct SKU, correct packaging generation, correct status.
11	Export	Right dimensions, sRGB, alt text.

THE TEN THAT NEVER SHIP

- 01 A retyped, stretched or outlined wordmark
- 02 The standalone symbol in public
- 03 Crushed blacks or smoothed skin
- 04 A blanket orange cast
- 05 Plastic foliage or fantasy ecosystems
- 06 Mascots, staged wildlife, symbolic birds
- 07 Alcohol, tobacco, intoxication as the social image
- 08 Generic cups, plastic bottles, third-party vessels
- 09 A disease claim or an unsourced statistic
- 10 A synthetic human presented as a real person

Who holds the gate

The editor scores and holds. The producer fixes. The founder is not in this loop — approvals happen at the lock level, weekly and batched. **A gate that requires the founder to open it is not a gate. It is a queue.**

11.2 – ONE PAGE. TAPE IT NEXT TO THE MONITOR.

THE QUICK CARD

PALETTE

Gold means inheritance. Silver means precision. Black Cherry means house. Racing Red is a signal, never a field.

THE NINE-POST FEED

Editorial or research	3	Human life or ritual	2
Product or material	2	Nature or ingredient	1
World or institution	1	Plants in 3 of 9. Product dominant in max 3.	

CASTING, IN ONE LINE

Black women 25–40 lead. Black, African, African-American, mixed and brown men and women 18–40, in shape, composed, put together. Women lead at least half of all frames containing people. All talent visibly 18+.

THE FOUR MODES

Analog Archive 35/50mm, amber practicals · **Luxury Laboratory** 70–100mm macro, f8–f11 · **Living Intelligence** 28/35/50mm, daylight, plant-led · **Ritual in Motion** 28/35/50mm, directional, fast shutter

TYPE STACK

Wordmark is artwork, never typed · display face for campaign headlines, caps, 4–12 words · editorial serif for thesis · house sans for body and captions · mono for sources and labels. No fifth family.

IDENTITY MINIMUMS

Clear space 0.5H, 1H preferred · print 30 mm · digital 160 px · stroke 0.20 positive / 0.30 reversed / 0.35 foil

THE TEN THAT NEVER SHIP

- 01 Retyped, stretched or outlined wordmark
- 02 The standalone symbol in public
- 03 Crushed blacks or smoothed skin
- 04 A blanket orange cast
- 05 Plastic foliage or fantasy ecosystems
- 06 Mascots or staged wildlife
- 07 Alcohol, tobacco, intoxication
- 08 Generic cups or third-party vessels
- 09 A disease claim or unsourced statistic
- 10 A synthetic human as a real person

THE SAME TIMELINE TEST

Could this be physically produced? Do the materials exist? Does the light have a source? Would it belong with the product removed? **Four yeses or it does not go.**

BEFORE IT POSTS

One governing idea · readable type · accurate sourced claim · correct product and status · clear action · clean sRGB at 1080 × 1350. **Score 19 of 22 with no prohibited element.**

PART ■

THE PHOTOGRAPHIC RECORD

Every frame in this section is the Supermind world as built to date, and is what the rules in this book describe when they describe a correct frame.
